Source confidence describes recorded retrieval and publication state. It does not rate the provider policy or certify source authenticity.

02

Explainability

SOURCE-ANCHORED TRACE

The AWS Site Terms are unchanged, maintaining existing rules for site access, content, and liability, with a future update date.

REASON 1

0 SCORE CONTRIBUTION

Broad license granted for user-submitted content, including derivative works.

Related KPI: AI output ownership · Snapshot side: old

Verified exact source passage: "you grant AWS a nonexclusive, royalty-free, perpetual, irrevocable, and fully sublicensable right to use, reproduce, modify, adapt, publish, translate, create derivative works from, distribute, and display such content throughout the world"

REASON 2

0 SCORE CONTRIBUTION

Extensive disclaimers of warranties and limitations of liability for site use.

Related KPI: Regulatory compliance · Snapshot side: Not recorded

Source passage not recorded. An unverified candidate passage is never displayed.

REASON 3

0 SCORE CONTRIBUTION

All disputes are subject to exclusive jurisdiction in Washington state courts.

Related KPI: Regulatory compliance · Snapshot side: old

Verified exact source passage: "shall be adjudicated in any state or federal court in King County, Washington, and you consent to exclusive jurisdiction and venue in such courts."

03 Governance Relevance

ADVISORY MAPPING

|                                                                                                                                                                                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                       |

Mappings identify review relevance between recorded PolicyWatcher KPI fields and framework topics. They are not legal interpretations, conformity assessments, certifications or compliance verdicts.

04 Report Output

HUMAN REVIEW

QUESTIONS BEFORE REUSE

- 01 Does the original AWS Site Terms source still match the recorded public snapshot version 2?
- 02 Do the cited source passages support each displayed reason, KPI value and regional note?
- 03 Which advisory framework topics require specialist legal, risk or governance review for this use case?
- 04 Has a later public change superseded this packet before it is reused in a decision or publication?
